The DIAL Labs: Contextualizing Power and Creating Change That Can Last

Anthony Meyers, an experienced arts leader and Founding Director of Leading ChangeMakers, a company that works to achieve racial equity in nonprofit arts leadership through training, consulting and research, will offer insights into his two-decade professional journey in the nonprofit arts sector, and the path that led him to social entrepreneurship. As part of his work with Leading ChangeMakers, Anthony will share perspectives on the concepts of individual and collective power and how they manifest in institutions. Through an EDI lens, he will explore conditions for creating change within organizational systems. Attendees can utilize concepts from this webinar to generate ideas for how change can be instigated in the workplace and refine their personal skills in identifying power dynamics that can encourage and inhibit change.
On the event page, locate the box on the right side with the title of the webinar. As you will see here, the box currently has notice saying that “The live event had not started yet. This event doesn’t start until [DATE] at [TIME.] Early Login opens 5 minutes before the time above.”

Return to the page five minutes before the event, and you will be invited to join the webinar via a pop-up window. Press the red EARLY LOGIN IS OPEN button and the webinar will open a new window.
Alternatively, return to the page right when the webinar is scheduled to begin, and there will be a new button that says ENTER LIVE EVENT IN PROGRESS. Click on the button and you will be let into the webinar. The webinar will open in a new window.
