Lame Duck Session – COVID Relief Talks

- Lawmakers are unlikely to reach an agreement on another COVID relief package before the end of 2020.
 - Key Obstacles: Aid to state and local governments, liability protections, topline spending
- Senate Majority Leader Mitch McConnell (R-KY) recently replaced Treasury Secretary Mnuchin as the administration's lead negotiator in relief talks.
 - Leader McConnell has vowed to oppose anything other than a “targeted” relief bill.
- Outlook: Passing a COVID relief measure will be among President-Elect Biden's top priorities in early 2021, especially if infection rates continue to rise.

Lame Duck Session – Omnibus Negotiations

- The current continuing resolution (CR) is set to expire on Dec. 11.
 - Congress has two options to avoid a government shutdown:
 - Pass another CR to punt the fiscal cliff into 2021 (likely February or March 2021); or
 - Pass an omnibus spending bill to fully fund the government through fiscal year 2021.
- Where things stand:
 - The House approved its version of 10 of the 12 necessary funding bills in July.
 - Senate appropriators signaled their readiness to negotiate in mid-November by releasing drafts of all 12 spending bills.

Lame Duck Session – Other Priorities

- **National Defense Authorization Act (NDAA)**

- The NDAA is critical to national security and must be passed before the holiday recess.
- Leaders of the House and Senate Armed Services committees have strived to keep the bill free of controversial provisions.
- The exact timing of passage is unclear, but it is expected to happen in the first half of December.

- **Extenders**

- Congress will likely attach expiring health and tax extenders to the year-end spending bill or CR.
 - Health extenders include funding for: community health centers, juvenile diabetes programs and safety net hospitals
 - Tax extenders include benefits for: certain film and theatrical productions, racehorses and business properties.

Urge Support for the Arts in COVID-19 Relief Legislation

Current Status

On October 1, the U.S. House passed a "skinny" version of the HEROES Act (which the House originally passed in May). This \$2.2 trillion bill included provisions that are greatly needed by the arts and culture sector such as:

- \$135 million **each** for the **National Endowment for the Arts**, the **National Endowment for the Humanities**, and the **Institute of Museum and Library Services** for grants to support the general operations of recipients and language to permit the waiver of matching requirements.
- A second round of **Payroll Protection Program (PPP)**, loans of up to \$2 million for certain hard-hit businesses; a set aside 30 percent of PPP funds for nonprofits of all sizes and types to receive first-time PPP loans; and a streamlined loan
